

# Water Platform Activities

Riccardo Rigon

Bolzano, Festa della primavera Alpina, 4<sup>th</sup>-8<sup>th</sup> March 2013

Water platform acts as a network of experts sharing experiences by means of workshops

**Three workshops were established (save the dates):**

March 18-19, 2013 in Aosta, Italy

**October 10-11 -2013 in Brescia, Italy**

Spring (?) 2014 in Lyon, France

**Aosta - March 19, 2014**

## **Experiences and paths in the implementation of the Flood Directive (2007/60/EC) in Alpine areas**

keeping into consideration the **bounds** given by the Directive **2000/60/EC** which requires “[...] **river basin management plans to be developed for each river basin district in order to achieve good ecological and chemical status**”, and the new scientific findings on climate change that have stressed as a priority the need to give operative answers to complex issues such as risk and hazard.

**Aosta - March 19, 2014**

## **Excerpts from the Provisional Agenda**

- 9:00 9:35 .....
  - 9:35 – 9:50 - The PLANALP position on Flood Directive implementation
  - 9:50 – 11:15 – Round table on the implementation of the Directive (presentations by partners are welcome)
- .....
- 11:30 – 13:00 – Round table towards a common Alpine position on the application of the Directive (issues and best practices)

**Aosta - March 19, 2014**

## **Excerpts from the Provisional Agenda**

- 14:00 – 18:00: **poster session**. This session is meant to give a highlight on the scientific and, possibly, practical aspects of the two directives.

## Brescia - October 10-11

### Theme:

**Local adaptation plans to climate change for water management: experiences and strategies in place**

with a side event organised by CIPRA

# 5<sup>th</sup> Water Conference

**Possibly on the impacts of Climate Change, and adaptation strategies. Trento, Autumn 2014.**

## How to interact with the water platform
