DAY EIGHT

**4th - 12th July 2011**

**The SuperAlp!**

Experience the Alps by sustainable mobility

---

**FORT GLACIER MONT BLANC**

By train to the Glacier des Diablerets (2,392 m). After a short walk, the glacier rises steeply to the left. It can be accessed by cable car from Diablerets (1,767 m) if weather permits. It is possible to walk on the glacier. There are panoramic views of the Matterhorn and the Pennine Alps. From here, enjoy a panoramic view of the Glacier Mont Blanc.

---

**MORTERATSCH GLACIER**

Be first on the Glacier in Zermatt, crossing the Theodul, passing high up at 3,180 m, arriving in the Pontresina. On the way back, the T contractor will take place in the evening.

---

**BRIG**

Visit the glacier and return to Brig in the afternoon. Free time in Brig.

---

**SIMILAUN HUTTE**

The official opening is organized in the morning. In the afternoon, a meeting with local authorities will take place.

---

**TROCKENER STEG**

The Aletsch Glacier is the longest glacier in the Alps. Situated in the eastern Bernese Alps in the Samedan valley, it is about 26 km long and more than 100 km wide. The glacier is fed by 82 snow sub-glacial lakes, all of which are more than 3,300 m above sea level in the Pennine Alps, between the Cervino/Matterhorn and the Berne- thron. It is one of the most significant glaciers in Switzerland. As there are no permanent snowfields, the glacier is fed by snow sub-glacial lakes, which are more than 3,300 m above sea level.
and not least the most eco-friendly and natural way, walking – enables which they participate.

Simultaneously a crossing point and refuge for different cultures, the Alps development of a territory that can celebrate its distinct characteristics.

In the footsteps of Ötzi, the Iceman 6th - 11th July 2011

Along the Via Alpina from Vent to the Similaun Hütte. After crossing the Riedel stream, the vegetation becomes sparse and the terrain high-alpine in character. After passing the Kastner hut, we will arrive at the Similaun Hütte at 3,019 m.

Walking time: 6 h 30 | 2360 m

4th - 12th July 2011

The SuperAlp! 5

Experience the Alps by sustainable mobility.

Located in the heart of Europe, the Alps have been a centre of a great historical, geographic and environmental importance since ancient times. Unfortunately, the increasing mobility of the Alps for Alpine cultures, the Alps too often perceived as a playground for wealth and pan of the world where innumerable opportunities for sport and leisure activities exist.

In 2011, the SuperAlp! project aims to implement and promote sustainable mobility for Alpine tourism and transport, which is not only environmentally friendly but also enjoyable for visitors.

For the 8th Edition of the SuperAlp! project, the Alps will host different territories, races and cultural events to promote awareness of the Alps as a sustainable, healthy, and local environment.

Walking time: 5 | 416 m
